

HORIZON IMPLANTS

Horizon Implants is a specialty practice dedicated to providing exceptional dental implant services, expert management of surgical complications, and comprehensive full mouth rehabilitation.

At Horizon Implants, our commitment is to deliver top-tier surgical care within a sophisticated, cutting-edge setting that fosters trust and assurance. Our expertise spans a comprehensive range of implant procedures, ensuring that every patient receives personalized and effective treatment.

Dr. Fahad Warriach, our esteemed implantologist, brings extensive training, experience, and knowledge to our practice. His board certification and advanced training during his three-year Implant residency at Loma Linda University highlight his mastery in the field. Dr. Warriach is proficient in a wide spectrum of implant procedures, including dental implants, wisdom tooth extractions, sinus augmentations, bone augmentation surgeries, and advanced techniques for bone structure reconstruction. He also specializes in innovative procedures such as "teeth in a day" (all-on-four), same-day smiles, and complex prosthodontic rehabilitation of implant-supported prostheses.

Our dedicated surgical team comprises seasoned professionals who are specially trained to assist in surgical interventions. With certifications in Advanced Cardiac Life Support, dental radiography, and CPR, our assistants ensure the highest level of patient care and safety.

At Horizon Implants, we are also here to support fellow dentists with any complicated procedures. You can confidently refer cases to us, knowing that we will provide expert care and handle every aspect of the treatment.

We are committed to excellence in dental implant services, effective management of surgical complications, and comprehensive full mouth rehabilitation, ensuring our patients experience the utmost in care and comfort.
